## Profile

I am currently unemployed after finishing my BTEC Level 3 Business Studies course at the college of further education, and am now wishing to work for a good company, that will help develop my skills further and help me develop new skills throughout my career.

I have done some work experience at Indulge Media. While working there I gained certain skill by team building with other staff, basic programming, planning thoroughly beforehand and how to communicate the key point of the work to other staff.

## Skills

- Communication & Teamwork
  - I developed this skill, by working in big groups and discussing the project assigned.
- Programming
  - I developed through using various teaching websites and I also developed this skill by reading various books about programming.
- Web Development
  - I have used various resources like Codecademy and various web development teaching sites
- Self-Management & Reliability
  - I developed this through work experience at Indulge Media and through college work. I also gained by working on a website that I do in my spare time.
- Customer Service
  - I developed this skill while supporting customers while I was building their websites in a freelancing role. I had to talk to customers, to understand what sort of website they wanted.
- Logical Approach & Problem Solving
  - These skills were developed, through doing assignment for unit 13. I also developed these skills through game development

## Extra Skills

- Team Building
- Leadership
- Microsoft Office

- Planning
- Social Networking
- Research
- Customer Service
- Open Minded
- Portuguese
